Residents of BCS3602
"THE EXCHANGE"

BIRD NUISANCE REMINDER

Please be reminded that birds nesting within the property are an ongoing issue within the neighbourhood. If you are experiencing a problem with birds on your deck, we recommend residents to contact Care Pest & Wildlife Control and arrange for netting to be installed on the exterior of your deck, with authorization by the Strata Corporation.

We also recommend that owners do not store anything on their deck that could be mistaken as a food source or a place to construct a nest.

We remind residents not to attempt to dislodge bird nests by spraying water or throwing rocks at them. This is a safety hazard to other residents, their belongings and to pedestrians walking below. Any resident caught demonstrating such behaviours will be fined by the strata corporation.

Should you have any questions or concerns, please contact: Silvia Lee at 604-331-5228 or slee@warringtonpci.com
